Presentazione dell'azienda

Kiasmo è una società italiana fondata nel 2011 qualificata in quattro settori specifici: architettura, arte, design, fashion. La sua posizione geografica, Ruffano (Lecce), è un elemento caratterizzante della filosofia e, quindi, della produzione aziendale, in quanto permette di raccogliere gli importanti stimoli che scaturiscono da tutta la straordinaria cultura mediterranea.

Kiasmo è un marchio contraddistinto da una assoluta dedizione progettuale, ascrivibile all'interno della categoria del lusso made in Italy con forti legami al mercato internazionale.

Il nome della società incarna l'incrocio tra arte, architettura, design e fashion. Kiasmo si distingue per un metodo produttivo contraddistinto da uno stile assoluto, senza tempo, in linea con la più alta tradizione manifatturiera ed artigianale dell'Italia.

Kiasmo è un brand riconoscibile sia nell'alto valore espressivo e funzionale dei manufatti, sia nel risultato formale privo da pregiudizi stilistici; la capacità d'innovazione della società si riscontra soprattutto nella volontà di riconoscere il grande patrimonio storico e artistico, non solo italiano, come valore imprescindibile per la progettazione e realizzazione di nuove opere e manufatti.

La produzione Kiasmo è organizzata per serie di opere. Ognuno dei quattro settori produttivi contiene al proprio interno una collezione di opere divise in serie tematiche. La produzione comprende opere artigianali, industriali uniche e seriali. Le collezioni si distinguono per uno stile ed un uso razionale e naturale dei materiali.

Company profile

Kiasmo is an Italian company established in 2011 and specialized in four specific areas: architecture, art, design, fashion. Being located in Ruffano (Lecce), in the center of the Salento peninsula in southern Italy, is a hallmark of the company politics and productions, as it allows to gather the influences that come from the extraordinary Mediterranean culture.

Kiasmo is a brand characterized by an extreme design devotion, to be included in the Made in Italy luxury category with strong connection to the international market.

In the name Kiasmo is embodied the intersection between art, architecture, design and fashion and a production method characterized by an utmost, timeless style, in line with the highest Italian manufacturing and craftsmanship tradition.

Kiasmo is a recognizable brand, both in the high expressive and functional value of the artefacts and in its outcome, without stylistic prejudices. In fact, the innovation ability of the company can be found primarily in the choice to recognize the great historical and artistic heritage, and not only the Italian one, as a fundamental value for the design and creation of new works and artefacts.

The Kiasmo production is organized in series of works. Each one of the four branches of production contains within itself a collection of works divided into thematic areas. The production includes craft works, and industrial which are unique and serial. The collections are distinguished by their style and the rational use of natural materials.
